PRESS RELEASE OF February 13, 2025

**A.M.A. S.p.A. Completes the Acquisition of the Agriculture Division of C.M.R. Group S.p.A.  
Costruzioni Meccaniche Reggiane**

**San Martino in Rio (RE) – Albinea (RE), February 13, 2025**

Following the binding agreement signed on November 5, 2024, A.M.A. S.p.A. – an Italian leader in providing solutions and components for Off-Highway Vehicles (OHV) – announces the closing of the acquisition of the Agriculture division of C.M.R. Group S.p.A. As a result of this transaction, A.M.A. S.p.A. has acquired 100% of the share capital of CMR Agriculture S.r.l. and 51% of the share capital of Taizhou CMR Machinery Co. Ltd., which together represent the Agriculture division of C.M.R. Group S.p.A.

This division specializes in the design, manufacturing, and commercialization of gearbox housings, reducers, drive shafts, disc bars, and spare parts for machinery used in agricultural, forestry, and gardening applications.

*"The announcement made last November is now materializing into a decisive strategic step for our growth," said Alessandro Malavolti, CEO of A.M.A. S.p.A. "This acquisition allows us to expand our product range, enhance our innovation capabilities, and strengthen our leadership in international markets."*

Ezio Paganelli, sole director of C.M.R. Group S.p.A., commented: *"We are proud to have built, over the years, a high-quality product range recognized worldwide. This acquisition represents an extraordinary opportunity to ensure continuity and further development of our work within a strong group like A.M.A."*

The acquisition was financed through a medium-to-long-term bank loan granted by a pool of banks composed of Banco BPM S.p.A., Cassa Depositi e Prestiti S.p.A., Crédit Agricole Italia S.p.A., and UniCredit S.p.A.

A.M.A. S.p.A. was assisted in the transaction for legal matters by PwC TLS Avvocati e Commercialisti, with a team led by partner Filippo Zucchinelli, and including director Giulio Della Casa and senior associate Andrea Pallone. For financial due diligence activities, it was supported by PricewaterhouseCoopers Business Services S.r.l., with a team led by partner Alberto Zanatta and including senior manager Alessia Trentin.

## **AMA GROUP**

AMA is an Italian company specializing in providing solutions and components for the setup and maintenance of Off-Highway Vehicles (OHV), agricultural machinery, and green care equipment. It supplies solutions for the agriculture, industrial, construction, and goods handling sectors.

Its production is structured into six Business Units: Cabin Components, Seats and Steering Wheels, Hydraulics, Agricultural Components, Soil Processing, and Garden.

Design, innovation, and engineering are the key value drivers AMA offers to manufacturers, for whom it develops custom components. Meanwhile, the Aftermarket division provides spare parts for the Farmer, Workshop, and Semi-Professional Private segments.

Today, AMA S.p.A. is a global group operating in 22 countries, comprising over 30 companies, with 19 production sites (14 in Italy), 15 distribution branches, and 6 sales offices. The AMA Group offers a range of over 525,000 references to more than 80,000 customers in 90 countries, employing over 1,500 people.

### **C.M.R. Group S.p.A. Costruzioni Meccaniche Reggiane**

For 30 years, CMR Group S.p.A. has been a leading company specializing in the design and production of mechanical components for various industrial sectors. It supports its customers in mechanical construction for agricultural machinery, industrial automation, and supplies spare parts for machinery in the ceramics sector.

CMR Group operates multiple production plants located between Italy and the Far East, along with service branches strategically positioned close to its customers. Its production facilities have the capability to manufacture cast iron and steel castings, investment castings, aluminum castings, sintered components, hot forging (steel), and plastic molding. Equipped workshops with modern machine tools provide customers with a wide range of custom-designed products, ensuring maximum flexibility during the production process.
